This is a great lot downtown Sheridan for sale. Perfect for many uses. We envisioned a row of townhomes, a couple of cottages, a small office building or even one nice homesite. It is currently in the Central Business zoning district so there are many options.

Public Remarks

The north end by the church is where you would build your home on 2.44 acres, the south end by the river 14.4 acres is in a flood area and is not buildable. The two parcels should be combined upon building. The minimum requirements to build are 2400 sq. ft, with a walk-out basement. The lower half by the river with 2400 feet of water frontage is great place to relax, fish or put your canoe in and float down the river. When constructing a home, it is recommended that both parcels be combined to create a unified property. To build on the property, there are minimum requirements: the home must have at least 2,400 square feet and feature a walk-out basement. The lower section by the river provides an excellent space to relax, fish, or launch a canoe and enjoy floating down the waterway.
