Public Remarks

Don't miss this rare opportunity to own two adjoining lots totaling 1.21 acres in the peaceful Hickory Hill subdivision-a unique property that includes partial lake ownership per lot lines. Nestled in a quiet neighborhood near Henry Wilson Park, this property offers the chance to enjoy the serenity of the lake, abundant wildlife, and even local eagle sightings. With convenient access to I-70 and just minutes from multiple retail destinations, this is a truly special setting for your future home or getaway retreat. Land like this doesn't come on the market often! Recent changes in legislation resulted in the property not being able to support a traditional septic system. This property will require an alternative septic system to build. No sewer available.

Public Remarks

Spectacular opportunity to own a sizable amount of acreage right on the edge and across the street from the city of Greenfield. Multiple possibilities here for development: could be subdivision, park or recreation area, senior development. There is a house on the property that has no value and probably needs to be razed. There is an older barn that is useable. 51 acres are tillable and currently rented through 2024. Approximately 15 acres of woods. 1 acre pond that is a wetland that can't be disturbed, or you can move it within the property but has to be same acreage as it is currently. Several drains tiles on property including one to keep the pond from overflowing in heavy rains. Document in supplements of Connie Matlock Minor Sub. Lot 1 is the only lot that is part of this listing (Lot 2 is not part of this listing). Parcel is not a perfect rectangle; south border has multiple measurements. Buyer responsible to verify zoning, lot dimensions and suitability of property for buyers use. There does not appear to be any tax exemptions on the properties. As of June 2025, the Seller has entered into an agreement to grant a permanent easement of 60 feet across the north edge of the property for a gas supply line. There will be a temporary easement during construction of additional 30 feet. Seller is willing to consider price allowance for the lack of the ability to use the easement in any construction or development of the property. Same amount of acreage will convey but easement is not able to be built in.
